## LOCAL SUBJECTS.

### MYSORE DISTRICT.

---

SUBJECT No. 297.

The transfer of one of the two Additional Munsiffs' Courts from Mysore to T.-Narsipur Kasba.

Mr. Sivabasava Devaru, land-holder, Talkad, T.-Narsipur Taluk.

*Summary of discussion.*—The people of this taluk find it very inconvenient to go to Mysore for Civil suits as they have to cross two rivers. It is therefore requested that one of the two Additional Munsiffs' Courts now at Mysore may kindly be transferred to T.-Narsipur Kasba.

*Reply of Government.*—This is not necessary.

SUBJECT No. 298.

Construction of a road from Kattemalalavadi to Attigode in the Hunsur Taluk.

Mr. Narasinga Row of Hunsur Taluk.

*Summary of discussion.*—At Attigode in the Hunsur Taluk a big shandy is held every week, at which extensive trade is carried on. To go to this shandy from Hunsur there is a road as far as Kattemalalavadi and for further ten miles there is no road. Much difficulty is experienced thereby both by traders and others. A road may, it is prayed, be opened from Kattemalalavadi to Attigode.

*Reply of Government.*—The District Board appears to consider it unnecessary.

SUBJECT No. 299.

Construction of a road connecting Seringapatam-Sivasamudram road with Mandya-Bannur road.

Mr. Srinivasaiya, Bannur Municipality.

*Summary of discussion.*—The construction of a branch road from Koppa in the Mandya Taluk *via* Arakere to connect the Seringapatam-Sivasamudram road with the Mandya-Bannur road, is prayed for. This will enhance commercial transaction and benefit the people and traders. The want of this road is very much felt now.

*Reply of Government.*—The District Board have vetoed the proposal in the meeting held on the 19th August 1905.

SUBJECT No. 300.

Drinking water for Bannur and the prohibition of fishing in the Bannur tank.

Mr. Srinivasaiya, Bannur Municipality, T.-Narsipur Taluk.

*Summary of discussion.*—The Bannur tank is the source of water-supply to Bannur and three or four surrounding villages. As fish are caught every day by fishermen, the water becomes impure and by drinking this impure water, unhealthiness is created. The subject was placed before the Municipal Board meeting held on the 29th November 1904, when it was resolved that this tank should be made the chief source of drinking water. It is requested that fishing may be prohibited in this tank.

*Reply of Government.*—This matter will be enquired into, and a special report submitted. Well water is said to be brackish.
